

## HENDERSON AND CROSBY CALL FOR HELP

TO PREVENT ONE BEING PUT OVER ON US AT TALLAHASSEE

ATTEMPT TO CUT THE NORTHWEST CORNER OFF OF MARION COUNTY IS AGAIN IN ACTIVE OPERATION

Tallahassee, April 9th, 1915.

TO THE CITIZENS OF MARION COUNTY:

Your representatives in the House beg to inform you that much work has been done in behalf of cutting off the western part of Marion county and we have good reason to believe that a determined effort will be made to put such a bill through the House, and we beg of you to furnish us with petitions and with all meritorious information and data to combat and fight any effort toward legislation in dividing our county.

Please take notice and govern yourselves accordingly. Quick and strong work must be done at once.

Yours to serve,

W. J. CROSBY,

W. T. HENDERSON,

Representatives, Marion County.

### DID NOT DELAY

The Star received the foregoing in this morning's mail and got busy as quick as it could grab a phone. It at once notified President Rogers and Secretary Rooney of the Board of Trade, Mr. J. M. Meffert and several other citizens. They have called a meeting of citizens at the Board of Trade this afternoon at 4 o'clock, which will do all possible to head off secession.

### CRESCENT CITY SANK

THE G. A. CARMICHAEL

Silver Springs Boat is in Shallow Water and Can Probably be Saved

Times-Union, 10th: The Crescent, of the Beach & Miller Line, crashed into the sides of the gasoline-propelled freighter, G. A. Carmichael, Capt. Fred Priest, owned by the Carmichael & Son Company, of Ocala, Friday morning about 4 o'clock on the St. Johns river opposite Federal Point, stowing in the side of the Carmichael and causing her to sink.

There was a heavy fog on the river at this hour and it is said, that it was impossible to distinguish lights or signals. Immediately after the crash the Crescent took aboard all of the Carmichael crew and then pushed the sinking vessel over into shallow water, where she went to the bottom in a depth of about seven feet. It is said that the owners will try to salvage the boat and cargo, which will probably not be difficult, owing to the shallowness of the water in which the wreck lies.

### JAX COP WANTS TO FIGHT JESS

The Metropolis relates the following incident of Jess Willard's stop in Jacksonville Thursday:

"It was during the high pitch of the excitement that Frank Lyon, the Jacksonville policeman, gained Willard's ear and challenged the new champion. Willard promised to fight Lyon one year hence. Lyon fought Jess back in 1911, and won a decision over him in 13 rounds at Elk City, Okla. The fight was stopped by the authorities. The Jacksonville 'copper' is in dead earnest in his effort to hook on with Willard. He is 6 feet and 4 inches in height and has a longer reach than Willard."

### MEDAL CONTEST NO. 3

The third silver medal contest by the students of Fessenden Academy will be held at 3 o'clock Sunday afternoon, April 11th, at the A. M. E. church, Reddick, Fla. These contests are growing in interest; come and bring your friends.

## VIENNA AND BERLIN CLAIM VICTORIES

RUSSIANS MEETING STUBBORN RESISTANCE AND FRENCH AND BRITISH REPULSED

Vienna, April 10.—The Russian attacks in the Laborz valley against Bartfeld, Hungary, have been repulsed. Strong Russian attacks against the fortified Austrian positions on the western slopes of the Beskid range are meeting little success. The Russians are being constantly reinforced. Fighting in the Carpathians is proceeding with extreme violence, especially around the Uszok pass and Zervo.

BERLIN ADMITS STRENUOUS BATTLING

Berlin, April 10.—Fighting between the Meuse and Moselle rivers continues with great violence. Between the Orne river and the heights of the Meuse, the French were defeated by the Germans. Near Flirey and at other points in the Woerwe district, French attacks are less vigorous on account of the terrific losses inflicted by the Germans.

In the east, Russian attacks east of Kalvaria were repulsed with fearful losses to the enemy. The situation in the east is otherwise unchanged.

AUSTRIA WANTS NO GOOD OFFICES

Rome, April 10.—The official newspaper of the Vatican today denied the report that Austria has asked the good offices of the pontiff to obtain peace for Russia.

MEETING MARION COUNTY EDUCATIONAL ASSOCIATION

The last meeting for the present school year of the Marion county Educational Association was held this morning at the high school building, with about fifteen teachers present.

An interesting program was rendered. The opening number was a piano solo by Miss Gertie Peyser, who played charmingly Liszt's "Hungarian Rhapsody." Splendid papers were read by Mrs. Wesson, Miss Maebel Beck and Miss Ethel Robinson. Mrs. Wesson discussed methods in geography, Miss Beck methods in reading and Miss Robinson methods in language. An open discussion followed in which Prof. Cassels and Mr. A. B. Connor brought out several excellent points. Another enjoyable musical number was "The Pink Rose," sweetly sung by Miss Musie Bullock.

The Good Samaritan Army, which has recently opened headquarters in the city has arranged a "resting room" on Fort King avenue for the accommodation of women and children visiting the city alone. Major and Mrs. C. L. McClish are in charge.

## RUSSIAN ARMIES ARE HEAVILY REINFORCED

FEEBLE ATTEMPTS OF AUSTRIANS TO ASSUME OFFENSIVE MET WITH OVERWHELMING FORCE

Petrograd, April 10.—With all important heights of the Beskid ranges taken except one, the Russian army is being heavily reinforced for the final stages in the drive toward Hungary. Feeble Austro-German attempts to assume a counter offensive between the Uszok and Lupkow passes, broke down under the severe Russian fire.

Another fight has developed on the northern edge of Suwalki, in Poland, where Gen. von Hindenburg has massed a heavy force of Germans, hoping to weaken the Russian pressure against Galicia. All seasoned German soldiers possible have been sent to the Carpathians. The bulk of the Germans now fighting in northern Poland are reserves.

Two German aviators, have been captured near the Vistula. Several high German officers were killed in the wreck of a military train. The Russians have destroyed a German airship in Bukovina. Czernowitz has been almost completely destroyed by the Austro-German artillery. The hospital was burned and twenty wounded perished.

Austro-Germans in the Carpathians have retreated nearly twenty miles, suffering such enormous losses that the Germans fear to reveal them.

SIX THOUSAND BALES WENT UP IN SMOKE

Half a Million Dollars Worth of Cotton Burned in an Italian Harbor

Naples, April 10.—Six thousand bales of cotton aboard the steamship San Guglielmo, in the harbor here, burned last night.

LOCK HORNS NEAR LAREDO

Scrap Between Greasers Imminent at Sanchez

Laredo, April 10.—Villa's soldiers are advancing against Nuevo Laredo. The Carranza garrison went to Sanchez, ten miles away, to give battle.

SAFETY HARBOR FOR SUBS

Kaiser's Undersea Boats Hiding in a Nook of Norwegian Coast

Copenhagen, April 10.—Norwegian airmen scouring the Norwegian coasts, investigating rumors that a German submarine base was located in some sheltered spot of these neutral waters, found several German submarines gathered behind the cliffs at Bergen bay. The submarines were ordered to leave immediately or else be interned for the remainder of the war.

PHYSICIANS AT THE FRONT

Americans Sacrificing Themselves in War-Stricken Europe

Washington, April 10.—Dr. Ernest P. MacGruder of this city, one of the physicians at the head of the American Red Cross unit in Serbia, is dead of typhus fever. His death is reported from Belgrade to Red Cross headquarters here.

Dr. MacGruder is the second American surgeon to give his life in the campaign against typhus in Serbia. The first was Dr. Joseph F. Donnelly of Brooklyn. Of six American surgeons and twelve nurses who went in the Red Cross unit to Servia only one, Dr. G. F. Butler, has been untouched by the disease.

## COLD STORAGE FOR CABBAGE

An Ocala Man Will Make a Long-Needed and Practical Experiment

Mr. C. B. Strickland has made or is going to make an experiment that the Star has long wanted to see tried out. He will place in cold storage several crates of cabbage before the season closes and leave them there for a period of time, taking out a crate in, say a month, another in six weeks, another in two months, etc., and watch carefully the result and the condition of the cabbage at the different periods of storage. The Star would like to see others make the same experiment and give the matter a thorough test. Cabbage has brought good paying prices this season and whether they would keep in this climate or Florida grown cabbage will keep at all or not, it would not pay the growers to place their crop in storage this season.

Imagine a season like last winter and spring. There was the largest crop of cabbage the state has probably ever known. The market went to pieces before the crop was more than a third harvested and after that the returns did not pay freight let alone package and gathering charges and thousands and tens of thousands of crates went to waste in the fields and the stock was allowed to range at will on them.

Not six weeks after the hogs had eaten the last of the Florida crop, the local merchants began paying the wholesale houses of Jacksonville, if we remember correctly, \$3.75 per crate for northern grown cabbage, for people just have to have their cabbage.

Suppose one of the growers who allowed a thousand crates to spoil in the fields had gathered and crated them and placed them in cold storage. At this time of the year there is plenty of room as the meat has been mostly taken out. If they had kept, and the experiments will soon show whether they would or not, this man would have obtained fancy prices for his cabbage and could have shipped out in small quantities to the dealers over the country, or could have sold his holdings in a lump probably to one of the Jacksonville commission men.

Be sure the experiment is given a thorough trial for it is worth it. Some of the small and medium-sized Florida cabbage heads are as hard as a coconut and they will keep for many weeks or we are badly mistaken.

The Ocala Board of Trade retains Secretary J. D. Rooney for another year. Rooney is a booster and a hustler, and has given Ocala much valuable publicity.—St. Petersburg Times.

A large shipment of Norris Candies just received at the Court Pharmacy. No. 2 better made. 19-1f

## FRENCH FORCE THE FIGHTING

ALLIES HAVE COMMENCED GREAT OFFENSIVE

BRITISH AND KING ALBERT'S MEN BATTERING GERMAN LINE IN BELGIUM

Paris, April 10.—The biggest French army yet concentrated at any given point is now massed in the Argonnes and Woerwe district, where, despite terrific losses, the French are driving repeatedly against the German positions. Gen. Joffre is personally directing the furious onslaughts expected to cut off the Germans at St. Mihiel.

The capture of Eparges is the hardest blow yet struck at the St. Mihiel-Metz line of communications. It is believed that the Germans lost 30,000 killed and wounded in the last two days fighting in the Woerwe district. Besides infantry and artillery attacks, the French are hurling whole fleets of aeroplanes into action, bombarding the German positions.

German claims that the French assaults at Woerwe are weakening are flatly denied.

Fighting has again developed in Belgium and the Labasse section, indicating that the much talked of "spring offensive" of the allies is under way in earnest.

ALLIES WANT ADRIANOPLE

London, April 10.—The allied fleet in the Dardanelles is now attacking the Turkish forts on the European

side. It is indicated that the allies will attempt to seize Adrianople.

FRENCH SHIP TORPEDOED

Paris, April 10.—The French sailing ship Chateau Briand, London for New York, with a cargo of chalk, was torpedoed and sunk in the English channel off Balfour by a German submarine Thursday. The crew was saved.

### HOSPITAL NOTES

Mrs. Walter Hood continues to improve.

Mrs. Keating is very sick. Mrs. Crook has returned to her home.

The ingenious mind of Mr. W. B. Gallagher afforded a number of his friends yesterday afternoon and evening a jolly good time. Mr. Gallagher owns one of the dandiest Buick roadsters in the city and ordinarily the seating capacity is sufficient, but yesterday it was not and to surmount the inconvenience he attached Mr. B. F. Condon's trailer, a two-wheel cart that holds, picnic style seven or eight passengers comfortably. The destination for the afternoon outing was Arden. The guests were Mrs. S. T. Sistrunk, Misses Alice Bullock, Minnie Stovall, Hallie McClure, Mr. and Mrs. Albert Gerig and Mr. O. B. Howse, and at Arden they were joined by Mrs. J. K. Austin, Mrs. Edward Holder, Misses Jean Austin, Ellen Clarkson in Mrs. Holder's car. At Arden gate the "trailer" party became a trail party, for the crowd became afoot the journey to the orange grove and rose garden, winding slowly along the picturesque two-mile trail. A light picnic lunch was relished on the banks of the Silver Springs run. Enjoying the evening outing were Misses Bullock, Stovall, McClure, Eugenia Fuller, Elizabeth Mizelle, Marguerite Porter, Annie Atkinson, Mrs. Bunyan Stephens. For two and a half hours the party motored and never did the members have a jollier time. No doubt "trailer" parties will be in vogue from now on.

Mr. S. J. McCully, county demonstration agent for the agricultural department, is among the visitors in the city today. He is returning to his home at Berlin, after a trip thru the southern part of the county. He says that his class now numbers 295 men and 128 boys, nearly all of whom are especially interested in the growing of corn by scientific methods.

Mr. W. R. Fisher, the veteran traveling agent for the Hart Line, was in town today, and paid the Star a pleasant call. He is a staunch booster for his world-famous line, and his visit to the Star was to impress the necessity of improving Silver Springs, building a trolley line and advertising more extensively.
